Alexandra Palace, 310
Alford, Dr. H. J., on otorrhœa in enteric fever, 758
Algeria, l'Assistance Publique, and proposed agricultural orphan asylums in, 381
Allan, Mr. J. W., on milk diet and the use of antipyretics in enteric fever, 302; on the treatment of violent delirium in fever cases, 1039
Allbutt, Dr. C., address at the Leeds School of Medicine, 640; on medical ethics, 733
Allen, Dr. J., death of, 381
———, Mr. R. R., an obscure affection of the feet, 88
Allinson, Mr. T. R., on a subject for experiment, 573, 622
Ambulance stations, 664
Amenorrhœa depending on absence of the uterus, 538
American degrees, 265, 312, 355, 394
——— home for inebriates, an, 609
——— Journal of Neurology and Psychiatry, the (review), 460, 778
——— Public Health Association, the, 559
Amsterdam, International Congress of Colonial Medicine at, 251, 341, 514, 791
ANALYTICAL RECORDS, — Kreochyle; liquor ergotæ purif; Italian wines; Reed and Carnrick's beef peptonoids; the Lairitz pine wood productions, 19—Holywell fruit champagnes; Fletcher's syrups of the hydrobromates; Khosh tonic bitters; sanitary rose powder, for nursery and toilet use; palm cotton dressing, 187—Savory and Moore's portable peptonising apparatus; Scott's emulsion of pure cod-liver oil, with hypophosphites of lime and soda; the "banyan curry powder;" elixir d'eucalyptus des trois-fontaines; skate-liver oil; flexible medicine capsules; old highland whisky, 591
Anæmia, 1046; idiopathic, 993; (progressive pernicious), and its successful treatment, 811; treatment of, by arsenic, 936; retinal hæmorrhages in, 1091
Anæsthetics, administration of, 357, 393; at hospitals, 621
Analgesia by the proposed new method, 512, 598
Anchyloglossus, total, 31
Anderson, Dr. McCall, on the Bill, 29; on a unique case of hereditary trichorexis nodosa, 140; on mediastinal tumours, 223; on aneurism of the aorta, with almost complete absence of direct symptoms, 805
———, Dr. W., on santonine as a remedy for gleet, 845
———, Surgeon, fatal accident to, 248
Anencephalus, a case of, 574
Aneurism, cerebral, 773; in young persons, 858; of the intra-pericardial portion of the aorta, sudden death from rupture, necropsy, 327; left popliteal, occurring about fifteen months after the cure of an aneurism of the right femoral, compression of femoral with ligature of ox aorta, cure, remarks, 681; traumatic, of the palm, operation of laying open the sac, recovery, 725; of the aorta, with almost complete absence of direct symptoms, 805; recurrent, of femoral artery, treated by excision, 902, 1082; popliteal, failure of compression, ligature of the femoral artery, cure, 1084; large iliac, cured by operation, 1102; of the basilar artery, 1147
Angina pectoris, case of, treated with nitrite of sodium, 901
Angleses, diphtheria in, 929
Animal intelligence, 377
——— locomotion, Marey on, 740
Animals, cruelty to, 70; affected with epidemic diseases, the consumption of the flesh of, 735
Antihelios, 117
Antipodes, lunacy at the, 792
Antiseptic frigidity of wounds, 829
——— surgery, the use of carbolised sawdust as a dressing in, 494
Anti-vaccinationist, the suicide of an, 555
Anti-Vivisection Society, the, and experiments in snake-poisoning, 1027
Aphasia, case of, recovery, 896; with right hemiparesis, in a girl aged twelve years, 895; with integrity of the third left frontal convolution, but with damage of the subjacent white matter, 969
Apomorphia, 43
Apoplexy, 513, 773
Apothecaries' Society, the, v. Pearson, 298, 356
——— Hall of Ireland, 392
Apothecaries and surgical appointments, 977
Apothecary, can an, legally hold a surgical appointment? 938
Apprenticeship system, inefficacy of the, 559
Arbutin, 120
Archiv für Anatomie und Physiologie (review), 282, 906
——— für Pathologische Anatomie und Physiologie u. f. Klinische Medicin (review), 590
Archives de Neurologie (review), 692
——— de Physiologie (review), 504
——— of Laryngology, the, 921
Archivio di Patalogia Infantile, 874
Are the accusations just? 825
Army, health of the, 830, 921
——— Medical Department, 242; banquet to the Director-General of the, 210
——— Medical School, 252; introductory address by Dr. de Chaumont, 597
——— medical service, the, in Egypt, 150, 332
Arsenic, poisoning by, the alleged case of, in Liverpool, 698; the diffusion of, when injected after death, 513; in idiopathic anæmia, 1071
Arsenical poisoning, a rapidly fatal case of, 943
Arterial lesions in varicose ulcers, 699
Arteries, temporary ligature of, 1104
Arteritis, suppurative, aneurismal changes after, 992
Arthur, Dr. W. H., medical etiquette, 714, 846
Artisans' and Labourers' Dwellings Improvement Acts, 381

—— service in Egypt, Lord Wolseley on the, 25

MEDICAL SOCIETIES.

ACADEMY OF MEDICINE IN IRELAND.—Spontaneous dislocation of the hip; Spinal injury and muscular atrophy, 15—Hæmopsilla; Muscular spasm, 59—Importance of the third stage of labour, 106—Removal of the thyroid gland in cases of bronchocele; Primary cons deration of orthopædic cases; Therapeutic value of nerve-stretching in tabes dorsalis; Fatal case of thoracic aneurism, 500—Congenital malformation of the thorax; Hydatid disease of the femur; Exophthalmic goitre; Removal of a polypus from right vocal cord; Dilatation of the colon, 544—Photographing microscopic objects; Incomplete fractures of clavicle and scapula; Ichthyosis of tongue, with malignant degeneration, 905—Fractured patella, 955

CAMBRIDGE MEDICAL SOCIETY.—Hysteria; Treatment of genu valgum; Tetanus, 106

CHARING-CROSS HOSPITAL MEDICAL SOCIETY.—On cholera in Egypt, 776

CLINICAL SOCIETY.—Catheter fever: abdominal abscess in children; Cerebro-spinal sclerosis, 682—Apoplexy; Cerebral aneurism; Tumours of cerebral membranes; Dislocation of jaw, 773—Wound of plantar arch, secondary hæmorrhage; Ununited fracture of patella treated by antiseptic metallic suture, 859—Salicylic acid plaster in the treatment of thickened epidermis; Myxœdema, 951—Pneumothorax in typhoid fever; Pneumothorax, recovery; Herpes labialis and rigor, 1089

EPIDEMIOLOGICAL SOCIETY.—Outbreak of cholera in Egypt, 14—The sanitary lessons of Indian epidemics, 58—Medico-topographical and health histories for districts and towns, 954

HARVEIAN SOCIETY.—Causation of congenital club-foot; Normal growth-rate in infancy and childhood, 728; Diabetes insipidus; Anæmia, 1046

LIVERPOOL MEDICAL INSTITUTION.—Multiple sarcoma; Tumour of the medulla; Ligature of the brachial for wound of the palm, 601—Syphilitic disease of lung, of trachea and bronchi, and of bones; Piece of bone passed through the bladder; Cardiac tonics, 863

MEDICAL OFFICERS OF HEALTH SOCIETY.—Metropolitan sanitary administration, 728; The water supply of troops in India, 1047

MEDICAL SOCIETY OF LONDON.—Treatment of fracture of the patella, 817—Malposition of tooth; Paroxysmal hæmoglobinuria, 862—Postures indicative of mental states; Nervous derangements of the heart, 903—Treatment of premaxillary bone in hare-lip; Demonstration of veins connected with the hepatic system; Recent improvements in rhinoscopy and the treatment of nasal polypi, 953; Fistula of penile portion of the urethra; Recurrent aneurism of femoral artery treated by excision, 992—Morphia habitués; Pulpy degeneration of synovial membrane; Foreign body in pharynx, 1045—Catheter fever, 1085

MEDICAL SOCIETY OF ISLINGTON.—Pathology and treatment of some forms of headache, 730

MIDLAND MEDICAL SOCIETY.—Definitions of disease for clinical use, 906; Morality of certain obstetric and gynæcological operations, 994

OBSTETRICAL SOCIETY.—Exhibition of specimens; Obstetrics of the kyphotic pelvis; Uterine myoma, its pathology and treatment, 105—Exhibition of specimens; Gangrene during pregnancy; The anatomy, physiology, and pathology of the os uteri internum, 690—Exhibition of specimens; Pyo-salpinx; Idiopathic

gangrene of uterus; Disease of Fallopian tubes, 904; Effect of the forces and resistances of labour in producing lateral flexion of the fœtal head; Mechanism of labour, more especially with reference to Naegelé's obliquity and the influence of the lumbo-sacral curve, 1129
OPHTHALMOLOGICAL SOCIETY.—Annual general meeting; Sympathetic ophthalmia; Hemi-achromatopsia; Foreign body embedded in the fundus oculi; Anomalous distribution of retinal arteries; Congenital ptosis; Nævus, 103—President's address; Tubercle (?) of choroid; Tumour of right eye, with right optic atrophy and left hemiplegia; Glaucoma; Cases of homonymous hemianopia, 688; New method of mounting eyes; Facial palsy and herpes zoster; Blindness and deafness after head injury; Retinal hæmorrhages in anæmia; Sympathetic iritis after excision; Sympathetic ophthalmitis; Blood in sheath of optic nerve; Conjugate movement of eyes, 1090
PATHOLOGICAL SOCIETY.—Lympho-sarcoma of alimentary tract; Tumour of bladder; Congenital growth in the orbit; Tumours of the brain; Gastritis in a bear; Sebaceous cyst from finger; Congenital malformation of heart; Gumma of dura mater and syringo-myelus; Rickets in the monkey, 684—Diverticula in the intestines; obliteration of the coronary artery; Congenital Club-foot; Rupture of the heart; Structure of internal hæmorrhoids; Necrosis of the lower jaw, 816—True bone in primary new growths; Charcot's joint disease; pedunculated adeno-sarcoma of skin; Necrosis of upper jaw after typhoid fever; "Tuberculosis" in birds, 902; Multiple tumours of the foot; Purulent pericarditis treated by incision; Etiology of tuberculosis; Aneurismal changes after suppurative arteritis; Tubercular ulcer of tongue, 991; Quiet necrosis; Melanosis after melanotic sarcoma of the choroid; Tubercular disease of the tongue, 1127
ROYAL MEDICAL AND CHIRURGICAL SOCIETY.—The localisation of cerebral function: Marshall Hall Prize Oration, 726; Aneurism in young persons, 858—The digitalis group; Congenital dislocation of hip, 949—Amputation in senile gangrene; Mediastinal emphysema and pneumothorax in connexion with tracheotomy, 1044
SHEFFIELD MEDICO-CHIRURGICAL SOCIETY.—Conditions of muscles in cases of disease of spinal cord; Pott's disease; Surgical treatment of renal calculus, 863; Exophthalmos without goitre; Dislocation backwards of the head of the left radius; Idiopathic anæmia, 993—Ruptured heart; Obstruction from impacted fæces, 1093
WEST LONDON MEDICO-CHIRURGICAL SOCIETY.—Presidential address; Cholera, 775—Herniotomy for strangulated hernia; Amputation of the forearm, 1093
WIGAN MEDICAL SOCIETY.—Compulsory notification of disease, 777

Medical Society of London, conversaziones at the, 26
—— student, the, 829
—— students, and medical legislation, 409; a preparatory school for, 911
—— testimonials to sell, 874

Midwifery, the rejections in, at the English Colleges, 247
Militia surgeons, 118, 157
Milk, adulteration of, 296, 473, 739; the testing of, 651
Milk-women, 801, 844
Miller Memorial Hospital, the, 264
Mill-hill, diphtheria at, 557
Milligan, Mr. W., on a case of tubercular meningitis, 900
Milward, Dr. J., on the Westminster guardians and Dr. Rogers, 709, 747
Mineral waters in France, 44

MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

ASHBURTON AND BUCKFASTLEIGH COTTAGE HOSPITAL.—Severe head injury, with unconsciousness; fracture of left leg; recovery, 543
BEDFORD GENERAL INFIRMARY.—Rupture of both lungs without external injury; necropsy, 457
BOROUGH HOSPITAL, BIRKENHEAD.—Bullet wound of skull; bullet permanently lodged within cranium; recovery, 949
BRISTOL ROYAL INFIRMARY.—Cases illustrating some of the lesions included under the term "spinal meningitis," 687
CASHEL UNION HOSPITAL.—Necrosis of skull from tertiary syphilis, 281—Cases under the care of Dr. Laffan, 726
CHARING-CROSS HOSPITAL.—Traumatic aneurism of the palm; operation of laying open the sac; recovery, 725
CHRISTCHURCH HOSPITAL, NEW ZEALAND.—Multiple lymphadenoma; enlargement of glands; treatment by arsenic; recovery, 635
CITY OF DUBLIN HOSPITAL.—Cellulitis of the neck; burns of the head and face from a gas explosion; acute œdema of scrotum, 327
CITY OF LONDON HOSPITAL FOR DISEASES OF THE CHEST.—Movable tumour in the abdomen, simulating movable kidney, 368
DISTRICT HOSPITAL, WEST BROMWICH.—Compound fracture of tibia and fibula; phlebitis; septicæmia; death, 857
EAST SUFFOLK AND IPSWICH HOSPITAL.—The entire scalp completely torn off, 102
GENERAL DISPENSARY, NOTTINGHAM.—Aneurism of the intra-pericardial portion of the aorta; sudden death from rupture, 327
GENERAL HOSPITAL, BIRMINGHAM.—Two cases of tuberculosis of the male genito-urinary organs, 101—Two cases of malignant disease of the œsophagus; gastrostomy in one case, incomplete gastrostomy in the other; death; necropsy; remarks, 588
GREAT NORTHERN HOSPITAL.—Left popliteal aneurism, occurring after cure of aneurism of right femoral; compression; cure, 681
GUY'S HOSPITAL.—Cases of disease of the upper jaw, 100—Distension of frontal sinus; incision; drainage; cure, 279—Old hip disease; excision; recovery with useful limb, 634
HOSPITAL FOR EPILEPSY AND PARALYSIS, REGENT'S-PARK.—Athetosis after syphilis, 989
KENT AND CANTERBURY HOSPITAL.—Successful gastrostomy case, 772
KIDDERMINSTER INFIRMARY.—Two cases of strangulated hernia, 542
KING'S COLLEGE HOSPITAL.—Paralysis of the palate and pharynx, complicated with pneumonia, both probably diphtheritic; rapid recovery, 56—Loose cartilage in the knee joint, 457—Paralysis of the serratus magnus only, the rhomboid muscles being unaffected, 771—Operation for non-union of fractured patella by the Listerian method; death from septicæmia, 856—On a new method of exposing the knee joint in order to remove pulsy degeneration of the synovial membrane, 1041
LEEDS FEVER HOSPITAL.—Scarlet fever, with complete relapse, 102
LEEDS GENERAL INFIRMARY.—Abdominal tumour; aspirated three times; subsequent disappearance of the tumour after an attack of diarrhœa and colic, 13—Case of ununited fracture of the patella treated by suture and Malgaigne's hooks; firm union and good movement, 1042
LEICESTER INFIRMARY.—Case of hydrophobia presenting some peculiar symptoms, 368
LIVERPOOL ROYAL INFIRMARY.—Excision of a tumour from the stylo-hyoid region; recovery; sudden death from dyspnœa, 499
LONDON HOSPITAL.—Hæmaturia with chylous urine, 857—Popliteal aneurism; failure of compression; ligature of the femoral artery; cure, 1084
MANCHESTER ROYAL INFIRMARY.—Epithelioma of the scrotum in a youth, 327
MANCHESTER WORKHOUSE, CRUMPSALL.—Hysterical (?) hemi-anæsthesia in a man, 360
MIDDLESEX HOSPITAL.—Case of strangulated hernia, 541—Severe blow on right temple; right hemiplegia and coma; spastic rigidity of left arm; trephining; recovery, 814—Gunshot wound of skull; lodgment of bullet in brain; trephining; death, 948
MONTGOMERYSHIRE INFIRMARY.—Parotitis followed by orchitis and meningitis; high temperature; recovery, 280
NEPAL RESIDENCY HOSPITAL.—Two cases of penetrating wound of the abdomen, and one of penetrating wound of the bladder, 458
NEWCASTLE INFIRMARY.—Stricture of œsophagus; gastrostomy *à deux temps*; death, 57
PRESTON AND COUNTY OF LANCASHIRE ROYAL INFIRMARY.—Spina bifida successfully treated by Morton's method, 499
QUEEN'S HOSPITAL, BIRMINGHAM.—Two cases of ulcerative endocarditis with Bright's disease, in one of which ulceration through the aorta took place, 185
ROYAL UNITED HOSPITAL, BATH.—Five cases of typhoid fever treated by cold baths, followed by salicylate of soda, 232
ROYAL BERKS HOSPITAL.—Case of ovariotomy in which colotomy was performed, 1126
ST. BARTHOLOMEW'S HOSPITAL, CHATHAM.—Acute traumatic tetanus, complicated with facial paralysis; death, 58
ST. GEORGE'S HOSPITAL.—Suture of the musculo-spiral nerve six months after its complete division, with restoration of its functions, 184; osteitis deformans, 1125
ST. THOMAS'S HOSPITAL.—Ununited fracture of patella; operation; cure, 232—Enlargement of thyroid gland, producing pressure on trachea and dyspnœa; removal of isthmus; cure, 900
ST. VINCENT'S HOSPITAL, DUBLIN.—Fatal case of uncomplicated acute rheumatism, 14—Severe reflex vomiting; nutrient enemata, 1043
SEAMEN'S HOSPITAL, GREENWICH.—Tropical abscess of liver; free incision; absence of peritoneal adhesion; recovery; remarks, 587
SHEFFIELD PUBLIC HOSPITAL AND DISPENSARY.—Mixed-celled sarcoma of lower end of femur; amputation through middle of thigh; recurrence in lungs; death, 144
SOOREE CHARITABLE DISPENSARY.—Curious case of malposition of tooth, 772
SOUTH STAFFORDSHIRE GENERAL HOSPITAL.—Ruptured spleen; death; necropsy, 635
STAMFORD, RUTLAND, AND GENERAL INFIRMARY.—Incised wound, followed by tetanus; recovery, 725
STANLEY HOSPITAL, LIVERPOOL.—Anchylosis of hip; reduction facilitated by fracturing the femur, 143—Carbolic acid poisoning, 280
STATION HOSPITAL, CAWNPORE.—Case of hydrophobia, 328
SUNDERLAND INFIRMARY.—Scirrhus of rectum; colotomy; recovery, 500
SUSSEX COUNTY HOSPITAL.—Excision of the rectum for epithelial cancer, 815
TEWKESBURY RURAL HOSPITAL.—Colotomy resulting from a stab; little or no injury to peritoneum; recovery, 990
UNIVERSITY COLLEGE HOSPITAL.—Pseudo-membranous (diphtheritic) ophthalmia in newly-born infants, simulating ordinary purulent ophthalmia, 12
WEST LONDON HOSPITAL.—Paraplegia in a child cured by purgatives, 141—Oblique fracture of humerus and other injuries; amputation; tetanus; death, 498—Suicide by drinking hydrochloric acid, 989
WOLVERHAMPTON AND STAFFORDSHIRE HOSPITAL.—Angina pectoris treated with nitrite of sodium, 901
WORCESTER GENERAL INFIRMARY.—Complete suppression of urine lasting fifty-three hours, followed by cystitis; recovery, 327—Acute rheumatism treated by salicylate of soda, 684—Fractured patella treated by wire suture, 1084

Mirrors, two laryngeal, 145
Mitchell, Dr. S. W., remarks upon some recent investigations on the venom of serpents, 94
Mitre, Mr. A., on unqualified practitioners in India, 1115
Monaco, typhoid at, 783
Money, Dr. A., on the frequent association of choroidal and meningeal tubercle, 813
Monkey, rickets in the, 685
Monkeys, the diseases of, 276
Monkwearmouth and Southwick Dispensary, 793
Monsall Fever Hospital, 571
Monstrosity, a, 938
Moore, Dr. J., death of, 788
——, Dr. G., a new nose inhaler, 1127
——, Dr. J. W., introductory address at the Meath Hospital, 909
——, Mr. W. J., on cholera and quarantine, 77
Morgan, Major, V., on homœopathy, 520
Morphia, another death from, 968; habitude, 1045, 1120
Morphine, lactate of, 921
Morison, Dr. A., on Ostler's uterine douche, 478
Morris, Mr. H., on rupture of the bladder, with notes of two cases, 8; on the treatment of

fracture of the patella, 880; on the fevers which sometimes follow catheterism in prostatic enlargement, 1080
Mortality, class and occupational, 998
—— statistics in health resorts, 255
Morton, Mr. A. S., on rotten fruit, 221
Mortuaries, Parisian, 845
Mosher, Dr. J. S., death of, 381
Mouat, Dr. F. J., on hospital construction, 615
Moullin, Mr. C. M., on one form of lawn tennis knee, 179
Mud salad market for sale, 558
Müller, Dr. R., on cremation, 875
Municipal elections, medical politics at, 801
Murchison, Mrs., death of, 157
Murray, Dr. G. S., on the removal of refuse, 620
——, Dr. J. C., on the treatment of cholera, 161; on bacteria not the cause of disease, 666
Murrell, Dr. W., on feigned skin diseases, 477; on nitrite of sodium as a toxic agent, 766, 880
Muscle, transplantation of, in man, 30; specific gravity of, 935
Muscles, the conditions of the, in cases of disease of the spinal cord, 864; gummatous tumours of, 699
Muscular contraction, reflex, 870
—— spasms, 59
Musculo-spinal nerve, suture of the, six months after its complete division, with entire restoration of its functions, 184
Mushroom poisoning, 820
Myxœdema, 54, 951; and cretinism, 959
Myxo-lipomatous tumour, 38

Nævus, 103
Naismith, Dr. W. J., on an effective appliance for symphyseal fracture of lower jaw, 988
——, Mr. C. F., on rapid decay of the teeth of young mothers, 758
"Narcotics, medical treatment, nursing," 115
National refuges and training ships for homeless and destitute children, 714
Naval Medical Supplemental Fund, 663
Neale, Dr. R., on the treatment of heart disease, 621; on the treatment of fracture of the patella, 881; on a leech in the larynx, 889
Neck, cellulitis of the, 327
Negresses, puberty in, 573
Negroes, resistance of, to diphtheria and scarlet fever, 219
Nephrectomy by abdominal section, 921
Nephritis, treatment of acute, 1144
Nerves, the regeneration of divided, in man, 1058
Nerve-stretching, 1029; in tabes dorsalis, therapeutic value of, 500
Neuralgia, a new treatment for, 919
Neuritis, atraumatic peripheral, 508

NEW INVENTIONS.—Bed-rest with foot support, and bed-pan cage; gas and other apparatus, 19—Reeves' disinfecting sewer ventilators, 109—Bronchitis and tracheotomy kettle; bed-rest with shifting arms; two laryngeal mirrors, 145—Pocket emergency tracheotomy case; new uterine douche, 331—A new method of sewer ventilation, 547—The perfect tube cleaner, 692—Bed table, 779—An improved portable galvanic battery, 820—Oro-nasal respirator for medicated vapours; wood wool, 908

New diseases, or deviations from old ones? 566
—— Sydenham Society, 331
—— York post-graduate School, 341; typhoid fever in, 469, 571; correspondence from, 683, *passim*
—— South Wales, unqualified hospital medical officers in, 1072
—— Zealand, post-mortems in, 1113
Newcastle-on-Tyne, correspondence from, 81, *passim*; the high mortality of, 740; election of a medical mayor for, 872; Eye Infirmary, 825
Newham, Dr. T., an asylum for imbeciles, 529
Newton, Mr. L., on ague apparently cured at the Bath Mineral Water Hospital, 803
Nicholson, Mr. E., seaside drinking water, 680
——, Mr. F. W., on a case of epilepsy, with suppuration of cervical glands, incision, large dose of bromide of potassium, 937
——, Mr. J. F., on picric acid as a urinary test when the patient is taking quinine, 835
Nightingale fund, the, 10
Nitro-glycerine and the nitrites, action of, 114
Nixon, Mr. N. H., on hospital administration, 834
Noel Park Estate, the, 248
Non-professional physiology, 1131
Norfolk and Norwich Hospital, the, 336, 571
Norris, Dr. R., on the development and coagulation of the blood, 136, 177, 224, 273, 317
North Devon, a medical coroner for, 648
—— of Scotland Medical Association, 251, 284
North-West London Hospital, 41
North-Western Association of Medical Officers of Health, 755
Norton, Lord, on attendance on servants, 1072
Norton-Erith, Mr. W. E., obituary notice of, 753
Notification, the ethics of, 244, 298; and trades unionism, 507

Nouveau Dictionnaire de Médecine et de Chirurgie Pratiques (review), 59
